

MEMO

Re:	Authority Grant Amendment
Grantee	All Alaska Pediatric Partnership
Original Amount:	\$300,000
Amended Amount:	\$1,000,000
Grantee:	All Alaska Pediatric Partnership
Project Title:	Help Me Grow Alaska: Community Outreach, Care Coordination and Developmental Screening
Trust Staff	Eric Boyer

Staff Analysis:

What does this project do?

This project will increase investment through a budget amendment to the All Alaska Pediatric Partnership (A2P2) Help Me Grow Alaska (HMG-AK) Trust Board grant approval last February. The project's goals include connecting families to care navigation, developmental and social emotional screening and timely referrals to community providers through their Centralized Access Point. This grant increase request will expand program communications and outreach specific to underrepresented regions of the state.

There will be two primary focus areas of Help Me Grow Alaska with the expanded funding: 1. Ensure appropriate staffing as we continue to scale the service to meet the increasing demand of families statewide. 2. Focused communication and outreach strategies, including regionally-tailored materials, events and partnership building in regions that are underrepresented in the current client populations.

Who is receiving the funds?

A2P2 is a non-profit organization established in 1995 with a mission to transform systems of care and increase access to healthcare and related services to ensure the children of Alaska reach their full potential. Through their Help Me Grow Alaska (HMG-AK) program they provide resources for families and providers statewide. A2P2 also hosts monthly statewide partnership meetings from September through May to facilitate cross collaboration within and between community providers, as well as the All Alaska Pediatric Symposium annually. While A2P2 is located in Anchorage, Alaska, they are a statewide resource for parents, families and providers.

Why is staff recommending this project?

Enhancing the existing Trust grant with A2P2 from \$300,000.00 to \$1,000,000.00 over two years will support the New Strategic Initiative around Prevention and Early Intervention. This project will expand outreach in two ways: direct-to-family engagement that is not dependent on a provider referral, and targeted relationship-building with providers and agencies in regions where referrals are low or absent. This two-pronged approach responds directly

to recommendations from HMG-AK's 2025 external evaluation, which found that outreach and the Centralized Access Point (CAP) are not yet fully integrated and mutually reinforcing, leaving areas without existing provider relationships risk being missed entirely. With this funding, A2P2 will strengthen its capacity to be intentional and data-informed, build name recognition, strengthen the referral network, and ensure resources go to the strategies with the most reach and impact in currently underrepresented regions.

Will this be a multi-year project?

This proposal is for a two-year/24-month grant project.

Staff Analysis:

In January 2026, the Trustees approved a \$300,00 grant to the All Alaska Pediatric Partnership (A2P2) for the Help Me Grow Alaska: Community Outreach, Care Coordination and Developmental Screening project. This two-year grant was to support A2P2 in implementing Help Me Grow Alaska (HMG-AK) to connect families to care navigation, developmental and social-emotional screening and timely referrals to community providers through their Centralized Access Point.

This funding increase is to address growth and increase outreach to rural areas so the budget would add the promotional outreach piece.

Budget Category	Original Grant Agreement Amounts	Updated Grant Budget Amounts	Difference
Personnel Services	\$172,840.00	\$602,900.00	\$430,060.00
Supplies	\$550.00	\$7,625.00	\$7,075.00
Space or Facilities	\$15,000.00	\$35,000.00	\$20,000.00
Travel	\$20,000.00	\$40,000.00	\$20,000.00
Other	\$46,610.00	\$164,475.00	\$117,865.00
Grant Indirect – 15%	\$45,000.00	\$150,000.00	\$105,000.00
Total	\$300,000.00	\$1,000,000.00	\$700,000.00

Attached documents:

- Original approval memo, approved by Trustees at the February 2026 full board meeting.
- Updated budget submitted by A2P2 showing revised \$1,000,000 grant budget.

Grant Approval Memo

Approved Full Board 2/19/2026

Grantee: All Alaska Pediatric Partnership
Request Amount: \$300,000.00
Project Title: Help Me Grow Alaska: Community Outreach, Care Coordination and Developmental Screening
Grant Term: 7/1/2026 to 6/30/2028
Fund Source: FY27 Trust Focus Area Strategy Implementation
Trust Staff: Tina Voelker-Ross

Requested Motion:

The Program and Planning Committee recommends that the Board of Trustees approve a \$300,000 authority grant to the All Alaska Pediatric Partnership for the Help Me Grow Alaska: Community Outreach, Care Coordination and Developmental Screening grant. These funds will come from the Trust Focus Area Strategy Implementation line of the FY27 budget.

Staff Analysis:

- What does this project do?
This project will support the All Alaska Pediatric Partnership (A2P2) in implementing Help Me Grow Alaska (HMG-AK) to connect families to care navigation, developmental and social-emotional screening and timely referrals to community providers through their Centralized Access Point. Trust funds are for personnel service costs, travel for outreach activities to strengthen statewide capacity, space/facilities costs, supplies, and other costs to include evaluation & consulting, data services, tele-language interpretation expenses, dues, conference & meeting expenses, and indirect expenses.
- Who is receiving the funds?
A2P2 is a non-profit organization established in 1995 with a mission to transform systems of care and increase access to healthcare and related services to ensure the children of Alaska reach their full potential. Through their Help Me Grow Alaska program they provide resources for families and providers statewide. A2P2 also hosts monthly statewide partnership meetings from September through May to facilitate cross collaboration within and between community providers, as well as the All Alaska Pediatric Symposium annually. While A2P2 is located in Anchorage, Alaska, they are a statewide resource for parents, families and providers.
- Why is staff recommending this project?
Help Me Grow Alaska (HMG-AK) continues to experience significant statewide growth, with more families seeking support for behavioral and mental health needs (see attachment for data related to growth and statewide impact). The program enhances early identification and coordinated access to developmental, behavioral, and mental health services for Alaska families, particularly for Alaska Mental Health Trust beneficiaries experiencing developmental disabilities, mental illness, or cognitive impairments. HMG-AK strengthens early identification and intervention systems across the state by empowering caregivers and expanding outreach in rural and remote communities. The HMG-AK model bridges service gaps and reduces isolation for families who face barriers to care, ensuring equitable connection to supports regardless of geography or circumstance. Serving families prenatally through age 26, with a focus on children

Grant Approval Memo

birth through age eight, Help Me Grow Alaska promotes early intervention as a critical protective factor, reducing long-term health and social costs while building stronger foundations for lifelong wellness and stability among Alaska's Trust beneficiaries and their caregivers. Finally, A2P2 not only provides direct services to families, it also utilizes the data gained from their work to make data informed decisions to improve Alaska's continuum of care for children and families.

- Will this be a multi-year project?
This proposal is for a two-year/24-month grant project.

Early Childhood & Youth	Early Childhood - Promote practice-informed, universal screening efforts and early intervention services	
Early Childhood & Youth	Early Childhood - Ensure accurate identification and treatment of social-emotional needs for children, youth, and their caregivers	

Project Description (from grant application)

Help Me Grow Alaska (HMG-AK) continues to experience significant statewide growth, with more families seeking support for behavioral and mental health needs. The program enhances early identification and coordinated access to developmental, behavioral, and mental health services for Alaska families, particularly for Alaska Mental Health Trust beneficiaries experiencing developmental disabilities, mental illness, or cognitive impairments. Through its Centralized Access Point (CAP), HMG-AK offers the only centralized intake and referral system (CRIS) in the state, connecting families to individualized care navigation, developmental and social-emotional screening, and timely referrals to community-based providers.

Aligned with Alaska's Comprehensive Integrated Mental Health Program Plan, HMG-AK strengthens early identification and intervention systems across the state by empowering caregivers and expanding outreach in rural and remote communities. The HMG-AK model bridges service gaps and reduces

Grant Approval Memo

isolation for families who face barriers to care, ensuring equitable connection to supports regardless of geography or circumstance. Serving families prenatally through age 26, with a focus on children birth through age eight, Help Me Grow Alaska promotes early intervention as a critical protective factor, reducing long-term health and social costs while building stronger foundations for lifelong wellness and stability among Alaska's Trust beneficiaries and their caregivers.

In addition to the direct service HMG-AK provides to families, the system is unique in its collection of data that is used to support a better understanding of the statewide system of care. HMG-AK is designed to help families in need today and use what is learned through its administration to create a better system for families in the future.

Performance Measures

Indicators of The Centralized Access Point (Served Metrics)

- a. Impact Indicator 1: Number of unique interactions
 - i. Measurable Objective: Total Number (#) of unique interactions over the past 12 months.
- b. Impact Indicator 2: Needs Met
 - i. Measurable Objective: Proportion of families reporting that their needs were met over the past 12 months.

Indicators of Child Health Provider Outreach (Bridged Metrics)

- a. Impact Indicator 3: Number of Trainings on Referral and Linkage Through Help Me Grow
 - i. Measurable Objective: Total number (#) of trainings provided by HMG to medical staff (physicians, nurse practitioners, medical social workers, etc.) on the topic of referral and linkage through HMG over the past 12 months.

Indicators of Community Outreach (Linked Metrics)

- a. Impact Indicator 4: Number of Partners Trained
 - i. Measurable Objective: Total number (#) of non-medical professionals trained on developmental screening and/or referral and linkage through HMG over the past 12 months.

Indicators of Family Outreach (Engaged Metrics)

- a. Impact Indicator 5: Number of Families Reached
 - i. Measurable Objective: Total number (#) of individuals (parents, caregivers, other family members) reached through events led or coordinated by HMG to promote awareness of child development and/or HMG over the past 12 months.

Sustainability (from grant application)

To ensure the long-term sustainability and continued growth of the Help Me Grow Alaska (HMG-AK) program, All Alaska Pediatric Partnership (A2P2) is implementing a comprehensive and diversified funding strategy. While ongoing support from the Alaska Mental Health Trust remains a cornerstone of this work helping to strengthen early intervention and care navigation for Trust beneficiaries and

Grant Approval Memo

those at risk of becoming beneficiaries, A2P2 is actively pursuing additional funding opportunities to ensure program stability and maintain its statewide reach.

This multi-year effort includes leveraging a combination of federal, state, and private foundation grants, as well as community partnerships. A2P2 continues to collaborate with state agencies, healthcare systems, and regional organizations to align HMG-AK with broader early childhood and behavioral health initiatives, ensuring that the program complements rather than duplicates existing resources.

With the growing interest in Alaska's HIE, healthEconnect, and the department's increased prioritization of centralized online tools to support access to services and supports, we strongly believe there are real opportunities for innovative partnership with HMG-AK, as other states have already pursued. A2P2 has submitted to DOH its proposed projects for the Rural Health Transformation Act and is preparing to submit proposals once the application period opens. The projects we identified are directly tied and utilize the services provided by Help Me Grow Alaska, and align with recommendations from the department's Behavioral Health Roadmap for Alaska Youth and to the priorities in the Trust's Comprehensive Integrated Mental Health Program Plan.

Data-driven evaluation remains central to this sustainability plan. Annual performance metrics, outcomes, and impact reports are used to demonstrate the program's effectiveness in improving early identification, strengthening family navigation, and reducing system-level barriers. This data not only guides continuous quality improvement but also serves as compelling evidence for future program development and partnership opportunities.

By combining the Trust's strategic investment with a diversified portfolio of funding sources and strong statewide partnerships, A2P2 aims to secure the long-term stability of Help Me Grow Alaska. This approach will ensure that families, particularly those with children experiencing developmental, behavioral, or mental health challenges, continue to have equitable access to coordinated care and early intervention supports well into the future.

Who We Serve (from grant application)

HMG-AK does not directly collect data on the beneficiary status of those served. However, the program can estimate the number of individuals (primarily children and adolescents) and households who received support from HMG-AK for developmental disabilities and mental illness in FY25.

- Developmental disabilities (includes HMG-AK reasons for call of cognitive or learning difficulty, communication, or developmental concern) – 396 individuals, 382 households
- Mental illness (includes HMG-AK reasons for call of mental health or neuropsychological evaluation referral) – 1126 individuals, 1072 households

Beyond the calls that fall into the above Trust beneficiary categories, in FY25 there were 1081 additional parents or family members that called Help Me Grow Alaska for support. Having Family Support Specialists that offer navigation services available as a resource for these families likely also serves as a prevention strategy to reduce the risk of becoming a Trust beneficiary.

Grant Approval Memo

Estimated Numbers of Beneficiaries Served Experiencing (from grant application)

Mental Illness:	1,126
Developmental Disabilities:	396
Secondary Beneficiaries (family members or caregivers providing support to primary beneficiaries):	2,603
Number of people to be trained	50

Project Budget (from grant application)

Personnel Services Costs	\$172,840.00
Personnel Services Costs (Other Sources)	\$0.00
Personnel Services Narrative	The Trust grant will fund the personnel costs for the following positions related to the program: 0.80 FTE Family Support Specialist 0.04 FTE Family Support Specialist II 0.05 FTE HMG-AK Program Lead 0.04 FTE A2P2 Director of Programs 0.02 FTE A2P2 Executive Director
Travel Costs	\$20,000.00
Travel Costs (Other Sources)	\$0.00
Travel Costs Narrative	Travel and outreach expenses will support and enable HMG-AK staff to conduct outreach activities and strengthen statewide capacity for virtual meetings.
Space or Facilities Costs	\$15,000.00
Space or Facilities Costs (Other Sources)	\$0.00
Space or Facilities Narrative	Space/Facilities expenses will cover a portion of the rent allocated to the HMG-AK program.
Supplies Costs	\$550.00
Supplies Costs (Other Sources)	\$550.00
Supplies Narrative	Misc. supplies related to the operation of Help Me Grow Alaska.
Other Costs	\$91,610.00
Other Costs (Other Sources)	\$0.00
Other Costs Narrative	Other costs to be funded by the Trust: Evaluation & Consulting - \$30,000 Data Services - \$3,500 Tele-language Interpretation Expenses - \$300

Grant Approval Memo

	Dues - \$10,000 Conference & Meeting Expenses \$2,810 Indirect Expense - \$45,000 Total Other Costs Funded by the Trust: \$91,610.00 Other costs including consulting fees for the annual HMG-AK Evaluation, which enables A2P2 to analyze critical data on partner and family needs, satisfaction with HMG-AK services, and progress toward advancing better health outcomes in state and local communities, including among Trust beneficiaries; Data Services include technical support for the HMG-AK Salesforce database; Dues expenses include the annual HMG National affiliate fees; Conference and meeting expenses include registration for the HMG National forum and misc. meeting expenses (for events held in communities); and indirect expense (15%). A2P2 is submitting this application for FY27–28 funding during the November 2025 grant cycle to align with the Trust’s review and approval process scheduled for February 2026. Receiving a funding decision early in 2026 will enable A2P2 staff to develop a realistic and balanced organizational budget for approval by the A2P2 Board in advance of the FY27 fiscal year. While HMG-AK is supported through multiple funding sources, many of these are currently under review or pending confirmation due to uncertainties within the broader funding landscape. A2P2 continues to engage actively with other funders to gather timely information and ensure responsible fiscal planning.
