Re: Authority Grant Requests of \$250,000 or more and/or requests that have a term of more than 12 months

On an ongoing basis, the Trust receives grant requests from organizations around the state that serve Trust beneficiaries. Trust program staff review these requests to assess their fit with the Trust's mission and current funding priorities. Following this review, this memo lists four items that are recommended by Trust staff for approval by the Board of Trustees. These requests have been evaluated by Trust program staff and a memo has been prepared that contains the information provided by the applicant, an analysis explaining the program staff's recommendation, the request's connection to the Comprehensive Integrated Mental Health Plan, and the proposed performance measures that will be assigned to assess each grant's outcomes. An executive summary of each project that includes a link to the complete application memo follows.
